

# Kraig Robert Marwick

*Artist Name: Kauda*

## Artist Profile

I am a musician, songwriter and producer studying HNC Music at UHI, specialising in recording, creative production and reflective practice. My primary instrument is rhythm guitar, with additional experience in lead guitar and strong capability on bass guitar. I perform all my own vocals and have developing keyboard skills supported by a solid understanding of music theory.

I have written and performed original material with multiple bands, gaining experience in live performance, collaborative songwriting and studio recording. These projects introduced me to professional recording environments and sparked my interest in production. I now regularly record and produce my own material at home using Fender Studio Pro, continually developing my skills in recording, mixing, arrangement, editing and vocal production.

## Key Skills

- Strong rhythm guitarist with lead and bass capability
- Vocal performance, vocal arrangement and vocal production
- Songwriting, lyrical development and melodic structuring
- Recording, editing, comping and mixing
- Creative problem-solving and adaptability
- Collaboration, communication and reflective practice
- Reliable, self-motivated and confident under pressure

## Recording & Production Experience

- Experienced in Fender Studio Pro workflows, including tracking, editing, comping and mixing
- Produced solo recordings and collaborative projects for coursework and personal development
- Skilled in vocal production: tuning, layering, distortion FX and dynamic control
- Comfortable working with limited resources and adapting workflows creatively

- Completed multi-track recording assignments, reflective logs and production analyses as part of HNC Music
- Developed skills in microphone technique, gain staging, EQ, compression and session organisation
- Created annotated screenshots and technical documentation for portfolio assessment

## **Technical Skills**

- Fender Studio Pro (formerly Presonus Studio One)
- Instrument and MIDI recording
- Microphone technique & signal flow
- Editing, comping & vocal production
- EQ, compression & FX processing
- Session organisation & documentation
- Basic live-sound operation

## **Professional Skills**

- Project planning & time management
- Reflective practice & documentation
- Collaboration & communication
- Creative problem-solving
- Adaptability in restricted environments

## **Songwriting & Creative Work**

- Written and composed multiple original songs across rock, ballad and country-influenced styles
- Previously sole songwriter for a band, responsible for full arrangement and lyrical development
- Compose using guitar, bass, keyboard and MIDI-based instrumentation
- Melody-first approach with strong understanding of harmony, transposition and chord structure
- Experienced in shaping lyrical phrasing, emotional contour and song structure
- Collaborated locally and remotely with bandmates to arrange parts, rehearse material and refine performances

## **Performance Experience (2021–Present)**

- Performed in local venues, community spaces and educational settings
- Comfortable performing original material and covers across multiple genres
- Experience in stage setup, backline management and liaising with sound engineers
- Performed a residency at a local venue
- Participated in a Battle of the Bands competition • Performed solo at open mic sessions

## Education

### **HNC Music – University of the Highlands and Islands (UHI) - 2025–Present**

- Recording techniques and digital audio workstations
- Songwriting and composition
- Live performance
- Music theory
- Music business
- Portfolio development
- Mentored by industry experienced professional musicians
